MAN LOSES LIFE WHILE ATTEMPTING TO BREAK JAIL

Had Been Arrested and Charged With Vagrancy--Articles, Evidently Stolen, Found in His Possession

A man who said his name was James McCarthy was arrested at 11:30 last Sunday night by Deputy Constable J. B. Seivers, who had been aroused by some boys who told him a man was attempting to break into a bakery shop in San Bruno.

Seivers immediately went to the scene partially dressed and asked McCarthy what he wanted. McCarthy replied that he wanted to get a pie. Seivers told him it was all right and to come along with him. The officer took hold of McCarthy's coat collar with one hand and reached around with the other and took a loaded pistol out of McCarthy's back pocket.

The prisoner was taken to Seivers' residence, where he was thoroughly searched, and shortly after bundled into a wagon and brought to this city and locked up in the jail.

Monday morning McCarthy appeared before Justice McSweeney and was charged with vagrancy.

A large satchel partially filled with several articles of value was in the possession of McCarthy when arrested.

The articles are as follows: A copper visiting card plate, with the name "Mrs. Helena B. Greninger"; silver hand mirror, with initials "E. G."; silver and gold purses; opera glasses; gold watch with initials "E. G."; pair of eye glasses; a gold souvenir of the Odd Fellows' golden jubilee in 1899; a small letter scale; a bunch of keys and wedding ring with "J. to L. May 7, 1902" inscribed on the inside; a street railroad construction workers' union card belonging to "George Rowe"; a receipt given by "Siechel & Williams" to "Mrs. Rowe" May 31, 1910, for the rent of a cottage at Twenty-second and Potrero streets, and a hypodermic needle.

McCarthy declared he picked up the articles on the road near San Bruno.

Justice McSweeney instructed Officer Seivers to make inquiries at San Bruno and find out if any one there had lost any of the articles.

Seivers, after a careful investigation, learned that P. J. Sullivan, the grocer, had given McCarthy some bread and cheese in trade for a large pocket knife combined with a fork and corkscrew.

The San Francisco police department was notified and given a list of the articles.

McCarthy was given his meals on Monday and in the evening locked up for the night.

About 10:30 the locomotive engineer of a passing train, seeing smoke and flames issuing from the building, gave the alarm with the whistle of his engine.

Night Watchman Acheson immediately responded, rushed to the jail and opened the front door, when a volume of flames burst out.

He gave the alarm and the fire department, under the direction of Fire Chief Kneese, responded promptly and soon had the flames under control. Groping through the ruins in the front cell, Kneese discovered the body of McCarthy partially burned near a barred window, where he had evidently

ly gone in an endeavor to get some fresh air.

Upon investigation it was found that McCarthy had collected some mattress filling and built a fire at the bottom of the front door with matches evidently handed to him through the barred front window. It is supposed he intended escaping from the jail after the fire had burned a hole in the door sufficiently large to permit his body to go through.

At the inquest held by Coroner Plymne Tuesday evening the jury brought in a verdict that McCarthy had met his death by suffocation from a fire built by himself in an attempt to escape from the jail.

Mr. and Mrs. Greninger of San Francisco were here on Thursday and identified some of the articles as belonging to them and they were returned. They said the articles had been stolen from their residence on Gough street several days ago.

PROCEEDINGS OF THE CITY BOARD OF TRUSTEES

Two Applications for Liquor Licenses Rejected--Fifty Dollars Voted for Fourth of July Float

The board of city trustees met in regular weekly session last Monday night.

The applications for Class C liquor licenses for a man named Curusis, whose grocery business is located on lower Grand avenue, and for A. Cinelli, who runs a grocery store on Baden avenue, near the school houses, were rejected upon motion of Trustee Hickey, seconded by Trustee Healy.

Citizen E. E. Cunningham appeared before the board and argued that Mr. Curusis had purchased a lot and was building a house on it which made him a freeholder, as required by the liquor license ordinance. He urged that Curusis be given the license.

After some discussion the board decided to grant no more liquor licenses to keepers of grocery stores, and the applications were rejected.

A communication was received from Attorney Henry Ward of Colma, stating that he had prepared papers necessary to be presented to the board of supervisors next Tuesday in the matter of disorganizing the local fire district and transferring the apparatus to the city.

Communication ordered placed on file.

Trustee Cunningham for the finance committee reported that the accountant firm of Osborn & Kidd, San Francisco, had been employed to expert the books of the city officials.

The purchasing committee was authorized to purchase necessary filing receptacles for maps, books, etc., for City Street Superintendent H. W. Kneese.

A labor claim for J. L. Wood in the sum of \$2.50 was allowed.

An amendment to section 10 of ordinance 13 was informally read by Clerk Smith and laid over for future action.

City Engineer Waggoner was instructed to prepare plans and specifications for the curb and sidewalk work ordered by the city to be done on Linden avenue from Railroad to Juniper avenues.

Trustee Hickey brought up the matter of the board contributing some money to pay the expense of getting up a suitable float to represent this city at the Fourth of July celebration that will take place at Redwood City next Monday.

Upon motion of Trustee Hickey, seconded by Trustee Cunningham, the sum of \$50 was voted by the board for that purpose.

It was decided to have a float built that will be symbolical of the manufacturing industries of this city, who are expected to also contribute if they wish their names advertised.

The following named business men were appointed as a committee to prepare a suitable float and ask for contributions from the factories: E. W. Langenbach, W. C. Schneider and Peter Lind. The committee is to act in conjunction with the members of the board.

On Tuesday Trustee Hickey obtained contributions from W. P. Fuller & Co. and the Doak Sheet Steel Co.

On Thursday he obtained contributions from the Western Meat Co. and the Steiger Pottery and Terra Cotta Co.

A large banner will also be prepared advertising the Fourth of July celebration to be given in this city next year.

City Attorney Styles was instructed to prepare legal forms necessary for Tax Collector Kneese.

City Engineer Waggoner was authorized to obtain all books necessary in connection with the curb and sidewalk improvements to be made shortly.

FOREIGN NEWS OF INTEREST

Ibrahim Wardani, the assassin of Boutros Pasha Ghali, the Egyptian Premier and Minister of Foreign Affairs, was hanged in Cairo, Egypt, June 28. Wardani was an Egyptian student and a member of the Nationalist party. On February 20th last he shot the Premier as the latter was leaving the Ministry of Foreign Affairs. His victim died on the following day. At his trial, the murdered said his motive was to avenge various acts of the Government, which the Nationalists attributed to Boutros Pasha Ghali personally.

A sensational attempt to kill Antonio San Miguel, Congressman from Pinar del Rio and a newspaper editor, was made in the lobby of the Cuban Congress. Congressman Manuel Lorez of Oriente was the assailant. The single shot he fired went wild. The bullet grazed the head of Congressman Antonio Gonzales Lanuza, leader of the Conservative party who was standing behind San Miguel. The latter drew a pistol, but the combatants were separated. It is believed that a duel between San Miguel and Lirenz is inevitable.

The Ministry of Justice at Rome has transmitted to the Foreign Office the evidence in the case of Mrs. Porter Charlton, who was murdered at Lake Como, leaving the Foreign Office free regarding further steps taken in the matter of the extradition from the United States of the confessed slayer, Porter Charlton. It is believed at Rome that the whole affair will be disposed of through negotiations between the Italian Embassy at Washington and the American authorities, also be on hand, but it is said that the operation is not so dangerous that anything more than a local anaesthetic is necessary.

DEATHS OF NOTED PEOPLE

◆◆◆ Daniel Webster Field, who had lived in Los Angeles since it was a village without a railroad, died June 27th, 77 years of age. Field held various offices during his public career here, and was president of the State Board of Building and Loan Commissioners appointed by former Governor Gage. Before the Civil War Field was noted as an Indian fighter in Minnesota. He founded the town of Glencoe, Minn. During the war he served with a Connecticut regiment.

Jesse Gillmore, one of the wealthiest pioneer residents of San Diego, is dead after a lingering illness of two months. He was about 80 years old and had been a resident of San Diego since the early seventies. Two months ago, while seated at the dinner table he sustained a stroke of paralysis, from which he never recovered.

United States Senator Samuel Douglass McEnery died at his home. Senator McEnery arrived from Washington, suffering from an attack of indigestion. He was taken to his home here, where physicians were summoned. The Senator rallied somewhat after treatment, but late on the night of June 27th his condition took a turn for the worse, and early this morning he lapsed into unconsciousness and died shortly before 10 o'clock. Senator McEnery was in his seventy-fourth year and his health had not been good for several years.

SPORTS AND ATHLETICS

◆◆◆ "You may say for me that I am convinced the fight is on the square and that there is no possibility that it will be stopped." The foregoing statement was made by Governor E. S. Dickerson of Nevada upon his visit to Reno, is the best proof that there is no chance for the Jeffries-Johnson contest next Monday after being interfered with. Although the Governor says that he has the authority to stop the fight should it become apparent that it is a fake, he follows that up with a direct assertion that the fight will be on the square and that he does not propose to interfere.

Tommy Burns, former heavyweight champion of the world, who was defeated a year ago last Christmas by Jack Johnson, the present holder of the heavy-weight crown, arrived in San Francisco on the steamer Wilhelmina. Hugh McIntosh, the Australian

Flanked by moving picture men, "Hinky Dink" Kenna, Senator Bill R. O'Brien and lesser notables, "Big Tim" Sullivan of New York, with \$91,000 in his clothes, passed through Chicago on his way to Reno. "I have to carry quite a little money with me," explained "Big Tim" "That sum represents what was paid in to me by promoters and principals in the Jeffries-Johnson bout. As I am stakeholder, I will have to be custodian of \$121,000 when the men enter the ring July 4th. Of this amount I have received all but \$30,000, which I will get when I arrive in Reno Saturday."

TERSE CALIFORNIA NEWS

Theodore Roosevelt Jr., and his bride are at Santa Barbara and have taken a cottage at Montecito, where they will spend their honeymoon. The young couple motored to town to purchase bathing suits, tennis paraphernalia and other concomitants of a pleasant summer at the seashore.

"We will stay here a month," said Roosevelt. "Then I will settle down to work. I am due in San Francisco on August 5th to begin my commercial duties. Until that time Mrs. Roosevelt and I will devote ourselves to quiet enjoyment of our holiday."

State Controller A. B. Nye has given instructions to Attorney-General U. S. Webb to bring suit at once against Rawhide and App Gold Mining Companies in Tuolumne county to recover \$12,500 in taxes which have been delinquent for the past several years. The mines are among the valuable properties controlled by Captain W. A. Nevills, one of the most promising mining men in the State.

According to reports given out by officials of the company, the Spring Valley Water Company is making extensive plans for the conversion of its lands in Niles canyon into beautiful public parks at a cost of many thousands of dollars. The company's engineers are at present making a beautiful water park at the Sunol dam, and this is said to be but a small part of the intended improvements.

That the 1910 crop of raisins will be smaller than that of last year was the statement made by A. L. Hobbs, a prominent Fresno packer who has been making extensive investigations along that line. Hobbs states that the muscat grapes will be up to average in quantity and quality, but that the seedless varieties have suffered greatly as the result of the changeable weather in the early portion of June, when some days there was a variance of 40 degrees between the days and nights.

Harry P. Flannery will not again be a S. F. Police Commissioner during the McCarthy administration. In a long letter which he sent to the Mayor he announced that in order to relieve the latter of any possible embarrassment he desired that his name should not be considered in connection with the post which he resigned at the time the charges made by the poolroom operator, Abbott, resulted in his indictment by the Marin county grand jury. The letter of Flannery and the reply of the Mayor were highly laudatory, one of the other. Flannery's praise of the McCarthy administration was unstinted, and in return the Mayor passed over the bouquet that Flannery "stands premier among the most responsible and esteemed men of San Francisco." An "earnest, fearless, upright and useful citizen" are other flattering terms which the Mayor applies to the former Commissioner.

The highest bidder will purchase the entire almond crop of the California Almond Growers' Exchange, which was recently organized through the efforts of the San Joaquin county growers. The officers of the exchange have prepared the specifications under which bidding will take place and they believe that by pooling their output they will secure better prices than heretofore. It is estimated that there will be about 1250 tons of almonds handled by the exchange and probably 800 tons not in the combine.

A proclamation to hold a bond election on August 2d, to vote on bonds to the amount of \$1,450,000, was issued by the Board of Supervisors of Contra Costa county at a meeting in Martinez. These bonds are to be voted for the construction of 124 miles of first-class roads in Contra costa county. The issue is to be made up of 1450 \$1000 bonds. These are to bear interest at the rate of 4½ per cent, to extend over a period of from twenty to forty years. It is the intention of the Supervisors to make all of the roads first class.

FOUNDERS OF THE CITY OF SOUTH SAN FRANCISCO

THE SOUTH SAN FRANCISCO LAND AND IMPROVEMENT COMPANY designed in its original plan to make of South San Francisco a great manufacturing center. With that object in view, it originally purchased 3500 acres of land in San Mateo County, on the bay front, five miles south of the City of San Francisco. Since the original purchase, the company has added greatly to its holdings by the purchase of large tracts of adjoining lands, giving to it a perfect environment for the complete development of a great manufacturing city.

The faith which this Company had in its enterprise has been manifest to everyone by the large expenditure it has made in the development of this property. Every foundation which goes to make a perfect condition for manufacture has been already solidly installed, and

SOUTH SAN FRANCISCO

is a rapidly growing city; it is a railroad terminal; it is on the main line of the Southern Pacific Railroad, and accessible to all railroads; has deep water communication; owns and operates for its industries a railroad connecting with the Southern Pacific and the water front; has electric street car service from factory to Town, and direct to San Francisco; has an Electric Light and Power Company; owns an independent Water Works, and has an abundance of fresh water for factory and house; has wharves and docks; a perfect sewerage system; a Bank and a Town Hall; and a population of over 3000 people an extensive and fine residence district, where everyone may secure lands at reasonable prices and on favorable terms, as homes for themselves and their families.

FACTORY SITES

can be obtained from the South San Francisco Land and Improvement Company on most reasonable terms.

The completion of the Bay Shore Tunnels has placed South San Francisco on the main lines of the Southern Pacific Railroad, and forty passenger trains per day connect it with the outside world.

With the completion of the Dumbarton Bridge and Cutoff, now rapidly being constructed, South San Francisco will have all railroads which center in San Francisco passing through its midst.

Many industries are already established here, chief of which are the Western Meat Company, the Wool Pullery, the Soap Works, the Baden Brick Company, Pacific Jupiter Steel Company, the Steiger Pottery Works, the W. P. Fuller White Lead Works, the South San Francisco Lumber and Supply Company, and other enterprises, all of which are in full operation to-day. The American Smelting and Refining Company has purchased over 300 acres of land in South San Francisco for the purpose of erecting a great plant, which they estimate will cost upwards of \$5,000,000. The Doak Sheet Steel Company has purchased a large tract of land and has already commenced the construction of a large rolling mill. Other factories have recently made purchases, and South San Francisco is plainly destined to fulfill all that its promoters had hoped.

SATURDAY.....JULY 2, 1910

The republicans of California may well pray to be delivered from the deadly mistakes of their blundering state central committee.

Mistake number one was made when the committee tabled a resolution denying and disavowing the charge that the republican party in California is controlled by the Southern Pacific Company. The refusal to hear or consider the resolution was equivalent to an admission that the damaging charge was true. The resolution not only called for a denial, but it opened the door to a vindication of the republican party against this widespread and oft repeated accusation.

It is a question whether fear or simple stupidity was the governing cause in this case. The chances are, however, that the two elements were about equal in effecting action so astounding.

Mistake number two was made when the committee coupled a commendation of President Taft and his administration, with a condemnation of Congressman E. A. Hayes, a regular republican and representative of the fifth congressional district.

Commendation was due the president, but condemnation of this republican congressman by the republican state committee was inexcusable and absolutely indefensible.

Hayes has been nominated and elected to congress three times, and always as a regular, straightout republican. He has never joined nor affiliated with any other political party or organization. It is true he stands for progressive political issues, but in this he is only carrying out faithfully the pledges of the last republican national platform.

It turns out, according to recent press dispatches from Washington, that at the time the republican state committee commended President Taft and condemned Congressman Hayes, Phil Teller, chairman of the committee, carried in his coat pocket a letter from President Taft commending Congressman Hayes and recommending his re-election.

This latter revelation is the political sensation of the past week.

The office of justice of the peace comes last in the list of offices provided by the county government act, and takes the same place on the official ballot.

While this office is last in the official catalogue, it is far from last in value and importance to the people. It is the people's court. In criminal actions it is the court of original jurisdiction in all mis-

demeanor cases, and all felony charges must be filed and heard in this court on preliminary examination, and dismissed or certified for trial to the superior court. The higher courts are remote, but this court is near, and it touches the everyday life of the people. It follows therefore that the people should exalt this office, and choose the very best among them for its duties and responsibilities.

In the present campaign, this city has a candidate for this office in the person of our esteemed fellow-citizen, Harry Edwards.

Without disparagement of any other aspirant, we are free to say that Harry Edwards is the right kind of man for the office.

He has first of all the judicial temperament, which means in plain English that he is by nature a fair, just man, with a level head on his shoulders. In addition, he is educated and well informed. He is a workingman and therefore in sympathy with the great body of the people. He devotes a large portion of his time and spare cash to the broad humanities, covered by the cause and term, "Fraternalism."

GLOBE SIGHTS.

If you are looking for information you will find the encyclopedia more reliable than a woman in a trance.

A chicken doesn't know much, but it has sense enough to go to bed at bed time. Very few men have that much sense.

Subject for discussion at to-night's meeting of the Lancaster Literary Society: "Do married men make the best husbands?"

When a man tells you what people are saying about you, tell him what people say about him; that will quickly take his mind off your troubles.

When a man helps a woman down the steps, she thinks he is gallant; but let a younger woman offer the assistance and it is a disagreeable inference of age.

By the time a woman remembers the size of the glove, shoe, shirtwaist, collar, corset, hose and belt she wears, she hasn't enough mind left to be burdened with further statistics.

It must be nice to be a bull dog; a bull dog is let alone so much. People are not particularly kind to a bull dog, but it isn't kindness a man longs for; it's being let alone.

FOURTH OF JULY CELEBRATION AT REDWOOD CITY

All arrangements for the Fourth of July celebration at Redwood City are complete. It will be a great county affair in honor of the completion and opening of the new courthouse.

There will be an extensive parade, composed of bands, military companies, fraternal organizations, fire companies, floats and citizens in carriages.

This city will be represented in the parade by a large float which will be symbolical of its manufacturing industries, and will be followed by a large banner advertising the Fourth of July celebration in this city in 1911.

The local board of city trustees voted \$50 at its meeting Monday night toward paying part of the expense of preparing the float and banner. Trustee Hickey called upon the presidents of the Western Meat Co., W. P. Fuller & Co., Steiger Pottery and Terra Cotta Co. and Doak Sheet Steel Co. during the week and asked for contributions of factory exhibits and cash sufficient to make up the balance of the expense necessary. They all responded promptly, and the float will be an elaborate affair which is being prepared by the following committee of business men: E. W. Langenbach, W. C. Schneider and Peter Lind.

The local organizations of Eagles, Redmen and Col. Peter Lind's company of rough riders will participate in the parade.

It is urged that every resident of this city who can possibly do so shall attend this county seat celebration and aid in making it the greatest that has ever occurred in San Mateo county.

The literary program will take place in front of the new court house. There will be music and speaking.

Among the speakers will be W. J. Martin of this city who will talk on the subject, "The Future of San Mateo County." Mr. Martin always interests his auditors and it will be well worth the trip to hear him.

G. W. Holston, local agent for the Southern Pacific Company, states that the company has made a special round trip rate from this city to Redwood City of 70 cents, good for to-day, Sunday and Monday.

Harvey D. Loveland, present railroad commissioner for the second district, of which San Mateo county is part, announces himself as a Republican candidate for nomination at the coming primaries. See his advertisement in another column.

The South Central High School, one of the historic buildings of Spokane, Wash., is a mass of ruins. Fire started in the furnace-room from an unknown cause at 6:30 A. M., and destroyed the structure in an hour. Most of the walls are still standing. The building cost \$210,000, and the contents were valued at \$30,000. The total insurance is \$97,000. The Board of Education held a meeting on the school grounds while the structure was burning and decided to erect a finer building immediately on the same foundation.

Two Irishmen stopping at a hotel in Dublin shared the same bed as well as the same bottle of whisky. Pat waited till he saw Mike was asleep, when he rose quietly and emptied the bottle. Soon afterward Mike, waking, stole out of bed and began groping about in the dark.

"Oh, nothin'" said Mike.

"Well, Mike," said Pat, "go over to the corner there, and you'll find it in the bottle."

COUNT ZEPPELIN'S AIRSHIP WRECKED

Lands in German Forest, But Passengers Escape

Count Zeppelin's passenger airship Deutschland, lies in the Teutoburgian forest, pierced by pine trees, a mass of silk and twisted aluminum. The thirty-three passengers aboard the airship when it struck the pines after a wild contest with a storm, escaped uninjured, climbing down from the wreck on a rope ladder.

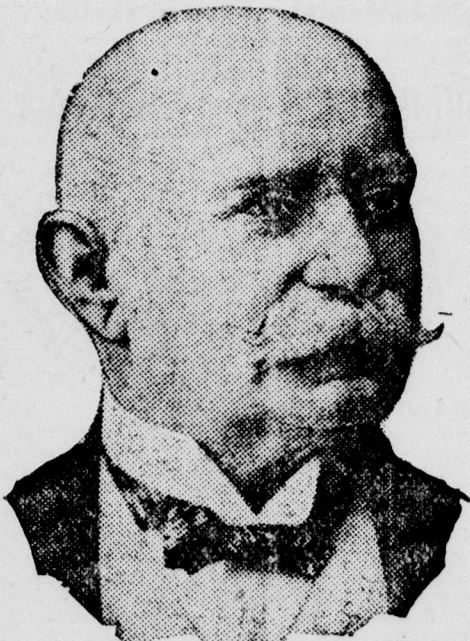

Herr Colesmann, general manager of the new airship company, Chief Engineer Duers of the Zeppelin Company, and Captain Wannenber, who had charge of the crew of ten, and twenty newspaper men, sailed from Dusseldorf at 8:30 o'clock for a three hours' excursion. The objective point was Dortmund, about thirty-five miles from Dusseldorf, but a high head wind prevailed and an effort was made to reach Munster, a garrison town, so that a landing might be made on the parade ground with the aid of the soldiers. It was realized that it would require a large number of men to hold the vast contrivance of silk and metal against the wind.

Adrift in the Big Storm.

In the high wind one of the motors refused to work and the other two did not give sufficient power to make any headway in the gale. The airship drifted, swaying in the violent gusts and sometimes leaning to an angle of forty-five degrees. All the while the engineers were at work repairing the disabled motor. When this was done all four screws were driven at their full power. Under normal conditions the engines were capable of driving the airship at a speed of forty miles an hour, but the helmsman was unable to keep his course and the great craft was swung about at the mercy of the winds.

Colesmann did not dare to come about for fear of overturning and decided to drift with the gale toward Osnabruck, also a garrison station. If he missed that he expected to continue on to Senne.

Suddenly he perceived a whirlwind coming and descended to a height of nearly 4000 feet to avoid the center of it. With the whirlwind came a heavy downpour of rain. After half an hour the Deutschland came down to permit

COUNT VON ZEPPELIN

observations, and it was seen that the Teutoburgian forest lay below. The forward motor stopped again and Colesmann sent five of the correspondents to the aft gondola to ballast the vessel.

Drops Into Dense Forest.

The Deutschland sank rapidly, having lost much gas in the high altitude, and dragged along the top of the dense forest. A heavy branch of a tree broke through the bottom of the cabin amidships, throwing two of the guests to the floor. Other branches ripped through the gas compartments and the whole great structure settled down thirty or forty feet from the ground.

"It isn't the fault of the Zeppelin system," exclaimed Herr Colesmann; "that is all right. It is our own fault. Our benzine ran out."

The airship, for which Herr Cilemann's company had just paid \$137,000, looked like a wreck. The frames were broken but the motors were not damaged. The silk was ripped and had fallen in a torn mass on the tops of the trees. Reports of disaster, explosion and death were widely spread. A party of officers and surgeons came by automobile from Iburg, and the district Governor and his wife arrived at the scene within half an hour by special train. A company of infantry was sent from Osnabruck and picketed the wreckage.

The disaster occurred at 5:30 in the afternoon. In the early part of the journey the airship maintained an altitude of about 500 feet, and the passengers, enjoying the new sensation, ex-

pressed contempt for the train rumbling down below and spoke of automobiles as out of date.

INDIAN POTENTATE HERE

The Gaekwar of Baroda Will Motor Through California.

On board the steamer Siberia, arriving at San Francisco June 16th, is the Gaekwar of Baroda, accompanied by his wife, the Maharani Gaekwar of Baroda; his daughter, the Princess, and a retinue of servants as large as the army of a Central American republic. The Gaekwar is bringing with him his private automobile, and proposes to give California enthusiasts a sample of motoring as it is done in India.

The party left Yokohama on the Siberia on June 1st and will make a tour of the world. After a brief visit in San Francisco they will proceed to New York. During his stay in California the Gaekwar will visit various places of interest and will devote much of his time, it is said, to driving his automobile over the roads of the State. He has become an enthusiastic motorist since his purchase of a machine several years ago.

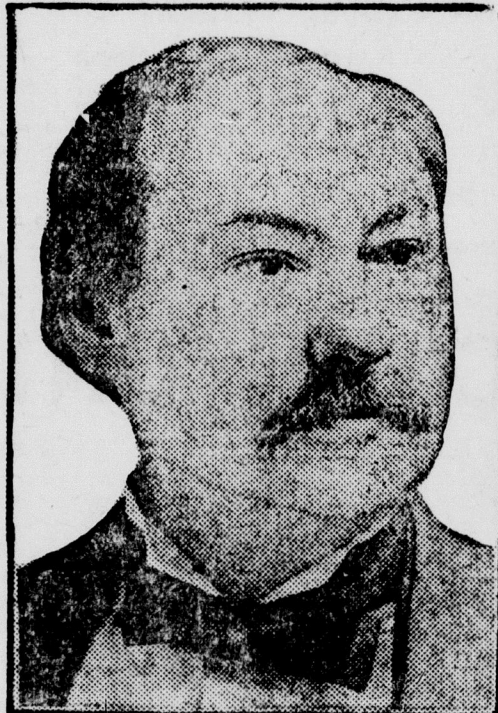

From New York the party will sail the latter part of the month for England. After visiting London they will proceed to the various Continental capitals.

WILEY'S POWER REDUCED

Government Chemist Restricted To Tests In His Laboratory

Dr. Harvey A. Wiley, chief of the Bureau of Chemistry, Department of Agriculture, is deprived of part of the power he has been exercising by a clause in the agricultural appropriation bill which says that "hereafter the legal work of the Department of Agriculture shall be performed under the supervision and direction of the Solicitor."

This means that Dr. Wiley, who heretofore has issued citations for hearings whenever examinations made

DR. HARVEY W. WILEY

in his bureau seemed to justify him in demanding of the manufacturer an explanation of any article of food or drug product which it was thought did not come up to the standard of purity demanded by the food and drug act, must confine his work practically to his laboratory. His other powers will be transferred to the Solicitor of the Department.

RUSSO-JAPANESE AGREEMENT

Ready to Sign Compact That Gives Them Control.

A Russo-Japanese convention dealing with the railroad situation in Manchuria will be signed in St. Petersburg by Iswolsky, Minister of Foreign Affairs, and Dr. Montono, the Japanese Ambassador.

The contents of the document will be communicated to Great Britain and France before the signing of the convention. Negotiations between Russia and Japan began soon after Secretary Knox's neutralization proposals. They were conducted in St. Petersburg between Iswolsky and Dr. Motono.

The convention will consist first of a general statement referring to the determination of the two Governments to maintain the status quo in Manchuria, both territorial and administrative, and to co-ordinate the railroads; and, second, a detailed technical agreement between the Eastern Chinese Railway Corporation and the South Manchurian Railroad Corporation, regulating the direction and division of the traffic between Vladivostok and Dalny, and establishing advantageous through rates on the railroads. Russia and Japan are to adjust several pending questions.

SECRETARY OF WAR ON INSPECTION TRIP

He Visits Local Forts Before Going on Transport

Secretary of War Jacob M. Dickinson put in a strenuous morning June 28th inspecting Armp posts and fortifications around the bay, and ending up with a trip to the Hunter's point dry dock, arriving alongside of the Siberia within half an hour of sailing time.

At 8 o'clock Secretary Dickinson and Brigadier-General Clarence Edwards, accompanied by Major-General Thos. H. Barry and Captains Frank H. Ferguson and Robert C. Davis, aide-de-camp, entered automobiles at the

SECRETARY OF WAR

Palace Hotel, going direct to Fort Mason, where the Secretary of War's salute of seventeen guns was fired. The party was received by Major Frederick R. Day, Thirtieth Infantry, commanding the post, and taken for a hurried trip over the reservation.

From this point the party went direct to the Presidio, where a regiment of coast artillery, a battalion of the Thirtieth Infantry and Battery F, First Field Artillery, were lined up on the parade ground for review. The troops were in full-dress uniform and presented a gorgeous spectacle, the brilliant red of the artillery blending with the blue of the infantry and the gold cords of the officers.

ROOSEVELT SUE FOR SLANDER

Charges Slander to Former President and Others.

Mrs. Ida von Claussen, a remarkably handsome young woman, who came to New York recently from Europe, created a sensation when she filed a complaint in a suit for \$1,000,000 against Theodore Roosevelt, Robert Bacon, United States Ambassador to France; Charles Graves, Minister to Sweden, and the latter's wife.

The suit is for defamation of character. In her complaint she sets forth that she was on the eve of becoming the bride of Prince Eugene of Sweden when the alleged interference of the defendants in her suit brought the match to an end. Mrs. von Claussen's troubles began when she failed to secure an introduction at the royal court in Sweden.

After having failed to be presented at the court of the King of Sweden, Mrs. von Claussen went to Washington in April, 1907, to lay the matter before President Roosevelt. She tried to arrange an interview with the President, but found the official bars too tightly closed to permit of her entrance to the President's presence.

She remained in Washington for some time, expressing the belief that she would secure satisfaction for the snub that she said had been administered to her by Charles H. Graves, American Minister to Sweden, at the time she sought to be presented at court.

Mrs. von Claussen also attempted to get the State Department to take her case, but in this, as in her appeal to the President, she failed. Since 1907 she has visited the national capital a number of times.

YOUNG TAFT IN ACCIDENT

Automobile Accident Likely to Cause Death.

The serious condition of Michael Thisthwaite, an Italian laborer who was struck by an automobile operated by Robert Taft, a son of President Taft, has caused a hurried change in the plans of the Taft family, who were preparing to depart on the Sylph for New London to attend the Harvard-Yale regatta Thursday.

Instead of attending the races, the family will remain at Beverly (Mass.), unless there is an unexpected change

for the better in the man's condition. A report from Beverly Hospital was that his name was on the dangerous list and he has only a slight chance of recovery. Dr. S. J. Mixler of Boston, was sent at the request of the President. He is working with the hospital authorities, doing all that can be done for the injured man. Robert Taft is badly broken up over the affair and spent much time at the hospital.

Chief of Police Ferguson has received instructions through the President's attorney to see that the injured man is given every possible attention until his arrival, when he will take care of the matter himself. Robert has been in conference with the Chief several times.

LOS ANGELES TENT CITY

Ready to Boycott Merchants Who Favor Open Shop.

Labor unionists who want to boycott Los Angeles storekeepers who do not sympathize with the strikes now on, and who also wish to stop paying wages to landlords who favor the open shop, have secured a tract of eighty-seven acres just outside the city limits, on which they will establish a tent city and live a community life. The settlement is at Edendale, on a 5-cent car line. It has city water and wires, and telephone and lighting facilities can be easily arranged.

Captain J. Hunter, who owns the land, has given it rent free for an indefinite period. Tents for 500 people will be immediately pitched, and the exodus from rented homes is to be made without loss of time. Some union tenants have to give from a week to a month's notice to leave their present premises. They expect to join the canvas city later on. The labor town of tents will be situated between Los Angeles and Glendale.

VICE-PRESIDENT'S WIFE ILL

In a Baltimore Hospital, With Husband at Bedside.

Mrs. James S. Sherman, wife of Vice-President Sherman, is in the Johns Hopkins Hospital in Baltimore seriously ill. She had been in the institution since last Friday, but the cause of her illness is not definitely known. She is under the care of Dr. William S. Thayer, who said he will diagnose her case. Vice-President Sherman arrived in Baltimore immediately after the adjournment of Congress Saturday night and kept a ceaseless vigil at the bedside of his wife all Saturday night, when she had a relapse, and all day Sunday.

Mrs. Sherman was brought to Baltimore on a special train Friday and hurried to the hospital in a closed automobile, which was in waiting at the Union station.

A FASTIDIOUS GUEST.

The Dish He Preferred In Place of Pemican Cake.

The little club of "dyed in the wool" bohemians, with all their traditional eccentricities, was giving a "north pole" supper. After the guest had been shown the imitation polar bears and the napkins formed in the shape of ice igloos he was asked to sample a cake of pemmican.

"It's something fine," elucidated one of the members with much enthusiasm. "I had a friend on a polar expedition, and he furnished us with the original recipe."

The guest nibbled a small section of the pemmican cake and hesitated.

"It-how is it made?" he queried warily.

"Well, I'll tell you. First we hung the toughest piece of beef we could find out in the open air two weeks."

The guest took a deep breath.

"Then we ground it up and mixed in the raisins and sugar."

There was another deep breath.

"And then we covered it over with tallow. Tallow is something like

THE GUEST LOOKED AROUND THE ROOM. cheese, and my exploring friend said the mustier it was the spicier the flavor—gives it a sort of pique taste, you know. But, man, you'll never be a good explorer if you don't like pemmican. Why, explorers even eat old boots."

"There was a silent pause, and the guest looked around the room as if in search of something.

"What is it, old man?" asked the host. "Why don't you eat your pemmican?"

"I was just thinking," responded the guest quietly.

"Thinking of what?"

"Why, that I might find a pair of old boots to eat in place of the—er—pemmican."—New York Herald.

No Use For It.

A Washington man took his little boy to church one Sunday morning. A missionary preached, telling about the nude heathen in the tropics, and after the sermon a missionary collection was taken up.

The little boy noticed that his father put in a suspender button.

He said to his father on the way home:

"Didn't I understand the preacher to say that those savages went naked, father?"

"Yes, my son," was the reply. "I'm glad to find you were so attentive."

"Then, father," said the boy, "why did you put a button in the plate?"

Aim to Rise.

Every man ought to aim at eminence not by pulling others down, but by raising himself, and enjoy the pleasure of his own superiority, whether imaginary or real, without interrupting others in the same felicity.

CRIMES AND CASUALTIES

Herbert M. Davidson, who conducted a draying business at 120 Bush street, S. F., was arrested and charged at the City Prison on two counts of passing checks on a bank in which it is alleged he had insufficient funds. Bonds covering both charges were fixed in the sum of \$11,000, and, according to the police, Davidson has recently secured between \$8,000 and \$10,000 from his friends on worthless checks.

W. H. Dunning, the former superintendent of the Orphan's Home, just north of Vallejo, and who in October last was convicted in the Superior Court of Solano county upon the accusations of debased conduct, has been taken to San Quentin there to commence serving his thirty years' term. Dunning, who is young and well educated, has been in jail at Fairfield for the past ten months. He has at all times sworn that he was guiltless and the victim of a terrible conspiracy. Upon his conviction he carried his case to the Appellate Court in the hope of getting a new trial, but in this he was unsuccessful.

Myer Barnett, alias Harry Myers, convicted of having picked the pocket of W. H. Glass in this city on April 30th last, was June 27th sentenced by Judge Austin of the Superior Court to spend nine years in San Quentin. Barnett was arrested and tried under the name of Harry Myers, but just before he was sentenced, he divulged his true name and admitted that he had been arrested at least once in the East. He states that he lived for eight months in San Francisco prior to coming to Fresno. The local police officers are certain that Barnett is a New York professional pickpocket, and the prisoner admits that it was in the big Eastern metropolis that he first "went astray."

SAN FRANCISCO PRODUCE MARKET

Latest Conditions and Prices of Seasonable Products of California

FRUIT—Standard varieties of fruit are in great abundance and the canneries are taking the best, leaving seconds for this market, to a great extent, and quotations are usually based on this fact. Apricots are the most important of seasonable fruits and after the canneries have the pick of these at \$20@25 a ton the small dealer gets his supply at 1½@2c a lb. in bulk or at 50@75c in packed crates. Better grades of peaches are appearing and lower grades are in excess, selling at 40@65c in baskets. Fancy boxes of wrapped peaches bring 65@75c. The prospect is that peaches will become too abundant for local demand. Plums in great variety and fine quality have oversupplied the market. Damsons bring 60@75c a basket, Clyman's 25@40c and Tragedy prunes 75@90c a box. Pears are slow sale at \$1@1.25 a large box. Royal Anne cherries in fine quality are about the only cherries in the market and bring 6@7c a lb. Cantaloupes range from \$1.75@2.25 for standards and jumbos, with a tendency to weaken. Sweetwater grapes have appeared at \$1@1.25 a crate.

BERRIES—Currant and berry receipts are decreasing and with other palatable fruits in season the demand is less, which tends to weaken price. Longworth strawberries are quoted at \$4@5 a chest, raspberries the same, blacks \$3@4, Logans \$2.50@3, currants \$6@7.50.

VEGETABLES—The potato market is weak at 70@90c a 100 for all kinds. Onions are firm at an average of \$2 per 100 lbs. There is good inquiry for tomatoes at \$2.50 a lug box for rivers. Peas, beans and corn are just about equal to demand. Peas \$2@3 a sack, string beans 5@8c a lb., corn \$1.50@3 a sack. Summer squash plentiful at 75@90c for large boxes, rhubarb 60@80c a box.

DAIRY PRODUCE—The supply of fine butter from Marin county is dropping off with dry feed and the northern bottom pastures are relied on to take its place. A very firm condition has prevailed in all the markets and San Francisco has been compelled to pay more than a safe storage rate through the season. For the past month the range on extras has been from 27½@29c and with an advance in Los Angeles recently extras have gone to 29½c here, to hold the valley supply.

EGGS—Prices have been kept near 27c for some time on California extras, but near the close of the month there was a drop to 26c. An advance was due, with a decrease of California production, but our high prices have started a heavy trade in Eastern eggs and an effort is being made to educate people to using them in preference, with a better margin to dealers in sight than in handling our expensive stock.

utation of being liberal in his views and capable of arriving at a just and sensible conclusion and in no need of a manager or prompter. As usual, and with an unbroken record to their credit, the Yeoman last Tuesday evening entertained a house full of visitors and members to delightful whist games. Coffee and cake all disappeared as if by magic, and as many called for several cups the fact was quite complimentary to the ladies, for the proportions were just right.

The following have been elected as officers for the ensuing term by the Woodmen of the World: L. A. Trae-

ger, consul commander; A. H. Gillespie, advisor lieutenant; F. E. Smith, escort; G. W. Edwards, watchman; A. Moore, sentry; A. A. Pudsey and Dr. F. H. Smith, managers. The newly elected officers will be installed July 8th.

Work on the school house is progressing slowly. Labor difficulties are already showing a disposition of uneasiness. The cement workers quit their work last Saturday. They were dissatisfied with the hours, concluding that nine hours of strenuous employment exceeded the established and uniform day of eight hours now in vogue for that kind of labor. It begins to look as if the construction will come to a standstill in a few days on account of the lumber dealers maintaining the open-shop policy, as no more lumber will be handled by the carpenters until that question is determined. The wood artisans maintain that there are two sides to the question, and a reckoning must be accounted for with them before the industrial ship of content will have as smooth sailing as the dealers would like to have it.

The members of the San Bruno Brotherhood of Yeomen are looking forward with expectancy of having a gala time. Grand Foreman William Koch of Des Moines is visiting the homesteads on this coast, and will be the center of attraction of all of the homesteads who will assemble at Cottillion Hall, 1159 Church street, San Francisco, to-night to honor his visit. Supreme Chaplain Mrs. Emma R. Waltrip, a woman of accomplished talents and oratorical ability, will also assist in class adoption. One hundred or more candidates will be initiated on this occasion. A banquet at one of the leading hotels was given in the grand foreman's honor last night. Quite a number from San Bruno attended and report having a splendid time.

An overflow meeting, standing room only, in the ante room of the San Mateo avenue fire house last Wednesday evening. To say that the Republican Club is a class by itself for popularity for passing a pleasant evening would be putting the question very mildly. A large delegation of our interesting and enthusiastic neighbors came down from Hillcrest and Vista Grande to boost their resident candidates. It is

said that self-praise is no praise at all. Then by the same token Ellis C. Johnson, for justice of the peace, and Mr. Parker, for constable, were relieved of any embarrassment that might arise from this delicate task, for their northern end friends proved themselves capable men. And their arguments were listened to very attentively. For the office of assemblyman the redoubtable Tom Hickey, the Jeffries of all the candidates, is building a reinforced fortification so strong that it is now impregnable to any attack. Tom's sincere and honest expressions have always won him a host of ardent admirers. His countless friends has increased the length of his name. The new name spells Honorable. The quiet and unassuming Harry, as everybody calls him—Harry Edwards, although not a giant in stature nor a Blackstonian versed in twisted and technical law, is the happy possessor of good, common sense, which would be quite an asset in dealing with justice in the court to which he aspires. The lowly and friendless would have a square deal with Harry, for his nature abounds with truth, justice and equality. Everybody knows Bob Carroll. His record as constable is an open book wherein is marked and credited all the duties of his office well performed. Ellis C. Johnson, a successful merchant of Hillcrest, is an aspirant for the office of justice of the peace, more on account of the solicitation of his friends than any desire on his part for the office. Our northern neighbors feel that their geographical location, joining the city limits of San Francisco, with a thickly settled community crossing over the line to San Mateo county, and the large population of the northern end, justifies them in asking that their candidate receive consideration at the hands of the voters. Mr. Parker is also spoken well of and indorsed by the north end people for constable. He has had a great deal of experience as an officer, having served in all about twelve years previous to his residence in Hillcrest. Mr. Parker made a favorable impression. His personality and argument are of the vote-getting kind. On account of the lateness of the hour the club adjourned without setting a date for the next meeting. However, the

executive committee will shortly announce another date for a meeting, at which many candidates will be present, and in order to share the good cheer and hospitality of the club every voter, irrespective of party affiliations, is cordially invited to attend.
